Business Overview :

NEWANDIVHO(PTY)ltd is a dynamic IT solutions company operating in the information technology industry. Established in September 2024 and officially registered in February 2026, by Mr Netshirembe Ndivho who is from previously disadvantaged background. The company specializes in delivering comprehensive technology services to meet the evolving needs of modern businesses. Our core offerings include professional web development, custom software development and maintenance, as well as reliable PC repair services. In addition to our IT solutions, we supply essential office equipment and cleaning materials to support complete workplace functionality. With a commitment to quality and innovation, NEWANDIVHO(PTY)ltd provides end-to-end IT solutions and office supplies that help organizations enhance their digital presence, streamline operations, and maintain optimal technology performance.

The main activities of a business are:

- ❖ Web and Software development and maintenance
- ❖ PC hardware repair and optimization
- ❖ Data capture and Data analysis
- ❖ Supply of Computer Hardware
- ❖ Supply of stationary and Office Equipment
- ❖ Supply of Cleaning material
- ❖ General supply
- ❖ Forestry activities

The business exists to uplift the standard of living for the community in the region, the district, province and nationwide

Vision :

To transform the way businesses, operate by delivering accessible, high-quality IT solutions and workplace supplies that enable digital transformation and operational excellence. Through innovative platforms like our upcoming local marketplace app, we aim to strengthen community commerce by connecting customers with businesses in their area, fostering local economic growth.

Mission:

Our mission is to provide businesses with comprehensive technology services and essential workplace resources, backed by expert support and a commitment to exceeding customer expectations.

Objectives :

- ❖ Service Excellence - Deliver high-quality IT solutions and services that exceed client expectations
- ❖ Market Growth - Expand our client base across various industries and sectors
- ❖ Innovation - Launch our local marketplace web application to support community commerce
- ❖ Community Empowerment - Improve locally-owned businesses by giving them visibility within their communities through technology innovation, boosting the local economy and promoting job creation
- ❖ Customer Satisfaction - Maintain a 95%+ customer satisfaction rate through reliable service delivery
- ❖ Skills Development - Continuously upgrade technical expertise to stay ahead of industry trends
- ❖ Business Expansion - Diversify our product and service offerings to meet evolving market needs

Core Values:

NEWANDIVHO(PTY)ltd stands on values that power progress and drive impact. Innovation is our engine—we push boundaries with technology that reshapes how businesses operate. Integrity is non-negotiable; we build trust through transparency and ethical action. Excellence defines our standard—every solution, every service, delivered with precision and quality. Community drives our purpose; we're committed to elevating local businesses and creating economic opportunities through technology. Customer success is our mission; we deliver reliable, responsive service that exceeds expectations and builds lasting partnerships.

Management :

NEWANDIVHO(PTY)ltd is owned and managed by Mr. Nesthirembe Ndivho, who brings extensive hands-on experience in software and web development to the company's leadership. With a strong technical background and practical expertise in delivering IT solutions, Mr. Ndivho guides the company's strategic direction and ensures the delivery of high-quality services to clients. His deep understanding of technology and commitment to innovation position the company to meet the evolving needs of businesses in the digital age.

Beneficiaries:

NEWANDIVHO(PTY)ltd serves small and medium-sized businesses, local entrepreneurs, and organizations across various sectors. Our clients benefit from comprehensive IT solutions, reliable technical support, and essential office supplies. Through our innovative marketplace platform, local businesses gain increased visibility within their communities, while consumers enjoy convenient access to nearby services. Government departments and agencies benefit from our professional IT services, enabling efficient digital transformation, improved service delivery, and cost-effective technology solutions that enhance public sector operations. Private companies gain competitive advantages through our custom software development, web solutions, and reliable technical support that streamline their business processes. Ultimately, our work benefits entire communities by driving economic growth, creating employment opportunities, and empowering locally-owned businesses through technology.

Monitoring, Evaluation and Financial Management

NEWANDIVHO(PTY)ltd maintains rigorous monitoring, evaluation, and financial management practices to ensure operational excellence and sustainable growth. Under the direct oversight of the Director, Mr. Nesthirembe Ndivho, the company implements systematic project tracking and performance evaluation processes to monitor service delivery, client satisfaction, and project outcomes. Regular assessments are conducted to measure the quality of our IT solutions, response times, and customer feedback, enabling continuous improvement and alignment with client expectations. Financial management is handled with strict accountability, encompassing budget planning, expense tracking, revenue management, and financial reporting. The Director ensures transparent financial practices, maintains accurate records, and oversees all financial decisions to guarantee fiscal responsibility and long-term business sustainability. This integrated approach to monitoring and financial stewardship enables NEWANDIVHO(PTY)ltd to deliver consistent value while maintaining strong financial health.

Sustainability

The business will be sustained through:

- **Revenue Streams:**
 - ❖ Service fees from web/software development projects
 - ❖ PC repair service charges
 - ❖ Sales from office equipment and cleaning materials
- **Client Retention:**
 - ❖ Long-term contracts and maintenance agreements
 - ❖ Repeat business from satisfied clients
- **Market Expansion:**
 - ❖ Growing client base
 - ❖ Expanding service offerings
 - ❖ Geographic expansion
- **Innovation:**
 - ❖ Staying current with technology trends
 - ❖ Developing new solutions
- **Partnerships:**
 - ❖ Strategic partnerships with suppliers
 - ❖ Collaborations with other businesses
 - ❖ Government contracts
- **Cost Management:**
 - ❖ Smart resource allocation
 - ❖ Efficient operations

Conclusion

NEWANDIVHO(PTY)ltd represents a forward-thinking IT solutions provider committed to transforming businesses through technology and innovation. Since our establishment in 2024, we have positioned ourselves as a comprehensive service provider offering web and software development, technical support, and essential office supplies. Our upcoming marketplace platform demonstrates our dedication to empowering local businesses and strengthening community economies. Under the experienced leadership of Mr. Nesthirembe Ndivho, and guided by our core values of innovation, integrity, excellence, community focus, and customer-centricity, we are well-equipped to deliver exceptional value to our clients. With a clear vision for the future, strategic objectives focused on growth and community impact, and a sustainable business model built on diverse revenue streams and strong client relationships, NEWANDIVHO(PTY)ltd is poised to become a trusted partner for businesses seeking reliable IT solutions and a catalyst for local economic development. We invite you to join us on this journey as we leverage technology to create opportunities, drive progress, and build stronger communities.
